DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-51 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent no. 5,717,984 to Wong.

Wong discloses, among other things, entering a plurality of positions into a controller 90, the positions corresponding to a plurality of operating units; moving the operating units to the positions in response to a signal from the controller; sensing the position of the moving web; and, when the position of the web changes, changing the position of the operating units.
